## BONE CHINA

---

At Mikasa Hospitality, we pride ourselves in being the foodservice industry's source for high-quality, beautiful bone china. Bone china is renowned for its delicate and translucent appearance. Our bone china has a minimum of 44% bone ash which enhances the whiteness and also lends it exceptional strength and a characteristic translucency. We are the largest importer of bone china in the United States, with an expansive offering designed specifically for professional use, a custom presentation can be tailored for each operator.

# CALLISTO

Contemporary and stylish, the Callisto collection boasts a beautiful bright white translucence. A gorgeous circular shape with options including smooth or subtle ribbing on the rimmed silhouettes, Callisto provides versatility to showcase any chef's special creation.

## VEGAN BONE CHINA

---

Mikasa Hospitality is the foodservice industry's exclusive producer of Vegan Bone China™. Made using the same composition of minerals and clay of traditional bone china but without the bone ash, it's 100% vegan-friendly and bone-free. The resulting dinnerware provides the same elegance, translucency, and durability characteristics of its conventional counterpart.

This ensures a luxurious dining experience without compromising one's commitment to a plant-based lifestyle.

## FINE2DINE + MIKASA HOSPITALITY

Explore our exclusively curated assortment of F2D for design-driven, high-quality, and durable tableware for creative food presentations. Only available through Mikasa Hospitality, these memorable pieces are crafted with the latest innovations and glazing processes, which ensure no two pieces are exactly alike. They can be easily mixed and matched for the ultimate tabletop ambiance and culinary presentation.

Mikasa Hospitality porcelain dinnerware is known for its elegance, durability, and versatility. It is crafted from a fine clay called kaolin, fired at high temperatures to achieve a smooth and glossy finish. Our porcelain dinnerware is renowned for its ability to showcase intricate designs and patterns. Our porcelain is a practical choice, as it is resistant to scratches, stains, and chipping. It is commonly used for everyday as well as elevated dining occasions, adding a touch of sophistication to the experience.

# AURORA

Rich tones, a matte **reactive glaze**, and a striking hand-drawn striped texture define this elegant porcelain dinner set. Finished by hand through a unique glazing process, each piece is one of a kind. **Aurora Green complements Usko (page 128), while Aurora Black pairs seamlessly with Oxido (page 116).**

## CRYSTALLINE GLASSWARE

---

Crystalline glassware is prominent in the foodservice industry and is valued for its exceptional clarity, durability, and aesthetic appeal. Our crystalline glass stands out for its exceptional brilliance and durability, enhanced by a pulled-stem design. Crafted from a single piece of glass, the pulled-stem ensures seamless strength and refined elegance. The remarkable clarity of crystalline glassware beautifully highlights the vibrant colors of beverages, adding an elevated touch of sophistication to any bar or dining experience.

---

Royal Leerdam has a storied legacy of 145 years in designing and manufacturing premium soda lime glassware for the hospitality industry. Known for its exquisite blend of elegant design and functional details, Royal Leerdam's high-quality collections cater to every occasion, offering a versatile range of elegant stemware, all-rounders, and specialty glasses.

Mikasa Hospitality offers exceptional, versatile glassware tailored specifically for the demanding needs of the foodservice industry. Crafted from high-quality soda lime and borosilicate, this glassware combines durability with refined aesthetics, ensuring long-lasting performance and a sophisticated presentation.

# EXPERTS'

The Experts' Collection embodies the beauty of an elegant design and a perfect bowl shape, developed to enhance the wine's taste experience. The series has been created in a close collaboration with Barbara Verbeek, a well-known Dutch wine expert and wine journalist. "Every wine is unique" Barbara explains, "my ambition was to develop a range of wine glasses, respecting the unique characteristics of each type of wine to bring out the wine's notes and flavors".

The Experts' Collection range consists of six different glasses. They are suited for wines which are Light & Fresh, Fruity & Smooth, Round & Mature, Powerful & Spicy and for Sparkling wines. Also, the range offers a versatile stemless wine glass which is perfect for serving water but it can also be used for serving wine.

# GOLDEN COLLECTION

The Golden Collection by Royal Leerdam blends sophistication and perfection for an indulgent experience. Clear glassware that redefines elegance and exquisite features. This collection includes 3 ranges:

Bonheur Optics, an exciting addition with a vintage-inspired design. From refreshing Gins to exotic Margaritas and classic Martinis, this range is the perfect choice for fancy restaurants and bars.

Carré Optics, a new line featuring two wine glasses, a flute, and a coupe, ready to grace every table.

And Régis, a standout in our Golden Collection, with a trio of wine and sparkling glasses, excellent for robust reds, light to medium-bodied whites, and dry, fruity sparklers.

## 18/10 FLATWARE

---

18/10 flatware and utensils are known for their high-quality construction and durability. The term "18/10" refers to the composition of the stainless steel used in these items, indicating that they are made with 18% chromium and 10% nickel. This combination results in a corrosion-resistant, long-lasting material ideal for professional use. We have a broad assortment of unique patterns and styles that are sleek and polished; adding some sparkle and shine to the table.

## Dinnerware Care and Usage

Guide to dinnerware care and use icons:

## Mikasa Hospitality dinnerware will provide years of attractive durable use.

We offer the following recommendations:

### Washing:

Use of a pre-soak solution can cause a chemical reaction with the china's glaze, which will etch the surface. Once etching occurs, the surface is more susceptible to glaze abrasion, metal marking and food staining.

Never use a scouring pad or powder to remove stains.

When placing dishes in a dish rack, separate china from stainless steel and glassware to avoid metal markings and excessive breakage of glassware.

Always wash soiled china within 30 -45 minutes after use.

Utilize solid plastic racks for washing and storage.

Do not use plastic covered metal racks.

Always store china in active use away from or above the food preparation area.

Always pre-rinse with 110° - 120° F water.

### Handling:

Always scrape and rack soiled china immediately after use.

Avoid stacking soiled china. If a backlog does occur, stack by item no more than 12 pieces high.

Never allow soiled dishes to stand overnight.

## Stainless Steel Flatware Care and Usage

Your fine stainless flatware will give you years of service and will always look table ready when properly cared for. We offer the following recommendations:

### Rinsing and Washing:

Remove all remnants of food from flatware immediately after use. Avoid using steel wool or metal scrapers.

Do not soak flatware for a prolonged period of time or overnight.

Keep knives separate with the blades pointed down.

Avoid low-temperature dishwashing.

It is not suited for stainless flatware.

Always make sure your flatware is clean and dry before storing to avoid corrosion and oxidation marks.

### Handling:

Use of perforated cylinders in a portable rack reduce wear and tear on your flatware.

Sort your flatware tines, bowls and blades facing down in the cylinder when transporting, washing and holding in the same cylinder. This prevents contamination when the items are removed for setting the table.

Sort flatware tines, bowls and blades up when using a system where the flatware is transferred from a cleaning cylinder to a storage cylinder by inversion.

## Glass Care and Usage

Mikasa Hospitality Glassware is made in one of the finest glass factories in Europe and will provide years of use if it is properly used, cleaned and stored. We offer the following recommendations:

### Rinsing and Washing:

Do not twist the bowl in one direction and the stem in another. This will put pressure on the glass and may cause it to crack or break.

Do not store or dry your glassware upside down. This puts pressure on the delicate glass rim and can cause breakage.

**Handling:**

Avoid storing or keeping wine or other colored liquids in glass as it may stain.

Should stains develop, rinse with 1 part water and 1 part vinegar to gently remove stains.

To get the longest use out of your glassware have a large back up supply of glasses. This allows them to be in service and be cleaned and dried naturally before going back into service.

Recently washed glasses should have time to self cool to room temperature to prevent shocking the glass and causing it to crack.

Make sure you have the correct rack system in place to hold and store your fine glassware.

Do not grab glasses by several bowls at one time. This puts undo pressure on the glass and overtime can cause scratching and breakage.

Only glasses marketed as stacking should be stacked. You risk breakage if you stack non stackable glassware.

Avoid thermal shock by assuring that your glasses are at room temperature before adding ice to the glass.

**Tritan Care and Usage**

Tritan™ Drinkware offer convenience and safety to the hotel and restaurant staff and guests They are non breakable, they don't crack or scratch and provide years of safe use when used correctly. Follow below to learn to the best way to treat your plastic serveware to allow for years of beautiful use. We offer the following recommendations:

**Rinsing and Washing:**

Treat melamine as you would fine china.

Melamine is commercial dishwasher safe.

Do not let food sit and dry on melamine, overtime it will dull the surface. Proteins will build up making the surface appear discolored.

**Handling:**

Do not expose melamine to direct heat over 200 degrees.

Avoid using warming lamps or other kitchen hear sources to keep food hot on melamine surfaces.

Avoid banging the plates on the corner of a table to remove leftovers.

Wipe leftovers off the surface with a rag to extend the life of your melamine.

**Wood Care and Usage**

Wash with warm water and a mild soap; rinse and dry immediately to preserve the board's durability. Do not put in the dishwasher or submerge in water. May also be treated with a food-grade oil to preserve its natural beauty.
