THE SMARTSTONE™ SYSTEM

All SmartStone induction countertops are resistant to high temperatures (ISO10545.9) and atmospheric stress, as well as being scratch resistant, impact resistant, totally hygienic and designed to meet the ever-new and changing demands of contemporary foodservice.

TRIVETLESS INDUCTION
Specifically designed to work with Spring USA hidden Induction Ranges and Frost Tops

NSF CERTIFIED
Compact, non-porous material does not harbor bacteria with easy maintenance

SUPERIOR QUALITY
Resistant to scratches, stains, chemicals, UV, and corrosion to retain original beauty, lightweight with better durability

PREMIUM FINISHES
A vast color palette of natural polished or pre-polished finishes - request a sample today

INDUCTION/ FROST TOP FURNITURE

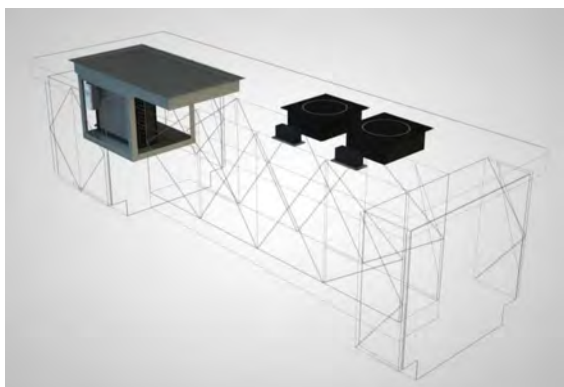

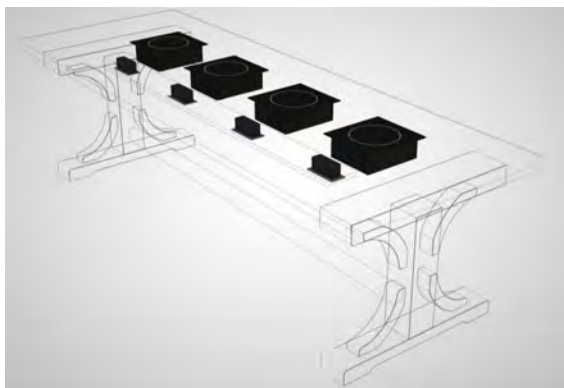

A leader in induction technology, Spring USA has worked with reknowned companies across the globe in designing and building functional furniture that fits within their operational layout and structure. From hotels to stadiums, casinos to hospitals, Spring USA uses their more than 30 years in the industry to help create beautiful, custom furniture with industry-leading induction technology and proprietary Smartstone surfaces.

INDUCTION TABLES

- Hold food at temperatures ranging from 150-180 degrees
- Magnetic induction technology heats induction-ready vessels and not the countertops

FROST TOPS

- When in use, the surface temperature remains steady between 0° to 30°F
- Maintains temperatures without the use of ice or ice packs, eliminating excess water and moisture on the table top
- Compatible with most single-walled serving vessels (aluminum, ceramic, glass, stainless steel)
- NSF-certified & UL-listed

Bring Your Custom Design to Life

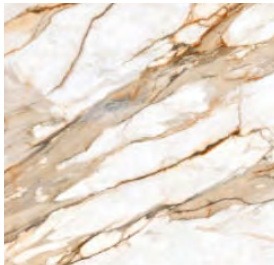

Your vision comes to life with Spring USA frost-top, hidden induction, and custom functional furniture. Work with our experts to craft a table that meets your unique needs.
