PROFESSIONAL

BAKEWARE
BY

SAFE -SERVICE SOLUTIONS: FROM BUFFET TO GRAB-N-GO

Compliance and convenience are equally important factors in grab-n-go, cook and serve or buffet-style dining. TableCraft continues to revisit the versatility of our current product offerings as well as create new items to enhance the food service operator and patron experience. Our Professional Bakeware by TableCraft team in Willis, Texas has been sharing their expertise and providing innovative hot and cold serving products for years. As trends and challenges create change in their buffet and caterware category, ProBake finds opportunities to continue to bring quality and dependable products that always promote food safety.

Many of our products are manufactured or processed in our Willis, Texas location. All of our DuraCoat™ Coating, Cold and Hot Well Covers, Templates and Inserts, Action Stations, Modular Action Stations and Safety Shields are made to order and shipped directly from this facility (other items shown may ship from our Gurnee, IL location).

Our experienced staff will work with you to create the best tools and experience for the operators in the industry.

DURACOAT™ & FINISHES | FOR BOWLS & TEMPLATES

KEEPING IT CLEAN, CONSISTENT & COLORFUL

Our Cast Aluminum bowls are virtually indestructible. The quality aluminum maintains the proper serving temperatures for all your foods. Plus, we offer a wide assortment of sizes and capacities to fill your presentation needs. Recommended for cold food only. Coating are safe for use with service temperatures down to -20°F, and up to 195°F for cleaning and sanitation. Choose from 16 DuraCoat™ coatings or revert to natural aluminum finish.

WISHING YOUR WELL COULD GET AN UPDATE? TableCraft provides a convenient and unique recoating program, so you can refinish your current templates and bowls for less than the cost of ordering new. Please contact your TableCraft sales rep for quotes and a re-coating authorization (RCA) to refinish your cast aluminum serveware.

FAQ:

Are there any performance differences between Natural finish v. DuraCoat™ Cast Coated bowls?

While both finishes are great for cold food storage and display, only non-coated or natural finish bowls can be used for hot food applications as well.

TEMPLATE FINISHES

DOWN TO -20°F

1: DROP-IN TEMPLATES

Place templates on the NSF-7 ledge inside your cold well unit. Each template is equal to one well. Per example above, a four well unit will need four templates. These templates rest slightly above the well floor and are perforated for maximum air flow circulation around our food bowls. Stainless Steel and Aluminum Templates available. Only Aluminum can be ordered uncoated or DuraCoat color coated (see page 3).

Cast Aluminum Template
Overall size: 12½" x 21¼" x 3"

2: CAST ALUMINUM BOWLS

These vessels are the same size and capacity as traditional food pans or hotel pans. They are available in a variety of sizes: Full, Half Long, Half, Third, Fourth, Sixth and Ninth size, so they are easy to configure inside your well. They should fit tightly together to retain cold serving temperatures. Bowls can be ordered uncoated or DuraCoat color coated (see page 3). If there are gaps between bowls, slide all bowls in same direction then fill gaps with adapter bars as needed.

3: ADAPTER BARS (WHEN APPLICABLE)

Spacer Bars are available in sets of two 12" or 20" and a six-piece assorted set that includes one of each bar: 0.25", 0.5", 0.75", 1", 1.25" and 2". Use individually to fill gaps in our well configuration, replace vessels for smaller food service, or create an alternative serving surface. Bars are manufactured to rest on the NSF-7 ledge inside your well and block cold air from escaping to optimize the efficiency of your unit.

ACTION STATIONS & MODULES | WITH SIMPLE SOLUTIONS™ BOWLS

NEW REDESIGNED
FOR SIMPLE SOLUTIONS BOWLS

NOW, OUR ACTION STATIONS AND MODULES HAVE BEEN REDESIGNED TO UTILIZE OUR SIMPLE SOLUTION BOWLS. THIS MAKES IT EASIER FOR END USERS TO INTERCHANGE THE SAME BOWLS IN THEIR COLD WELLS, PORTABLE ICE WELLS, STATIONS & MODULES.

ACTION STATIONS FOR INDUCTION COOKTOPS

TableCraft's Action Stations create the perfect made-to-order destination. Ideal for an omelet station, or get even more creative and use it as a taco, pasta bar or stir-fry station! Each unit features a drop-in electric induction cooktop: (1) for each single station and (2) cooktops for a double station. Each single and double station also includes (2) half long cooling plates.

- Newly designed to fit Simple Solution Bowls
- Available in Brushed and Random Swirl Aluminum Finishes
- Available in Translucent Clear, Copper and Black
- Module Station also available (see below).

NEW REDESIGNED

FOR SIMPLE SOLUTIONS BOWLS

Our Action Stations and Modulars now feature an arched design over the cooling plate chamber for easier plate insertion and removal—without compromising cooling performance.

BEFORE: Cooling Plate had limited accessibility. **AFTER:** Cooling Plate can be inserted or removed easily.

MODULAR COOLING STATIONS

Our modular cooling stations allow you to add multiple cooling stations where you need them, using less space and creating maximum flexibility. Our cooling stations are now designed to fit Simple Solution Bowls.

- Newly designed to fit Simple Solution Bowls
- Available in Brushed and Random Swirl Aluminum Finishes
- Available in Translucent Clear, Copper and Black

SIMPLE SOLUTIONS BOWLS FOR ACTION STATIONS & COOLING MODULES

Our Simple Solution Bowls are virtually unbreakable and are a great way to organize and display foods for buffet and catering events. The 3" deep bowls fit perfectly in the Action Station and Modules resting on top of the cooling plates

- Bowls are sold separately to allow for configuration versatility
- 16 DuraCoat Cast Aluminum Coatings are available (see page 3) to customize our presentation
- Coated bowls are safe for use with service temperatures down to -20°F, and up to 195°F for cleaning and sanitation.

SAFETY SHIELDS | FOR ACTION STATIONS & MODULES

CWACT1FSHIELD_
Single Action Station Shield with Frame
35½ x 13¼ x 32" (¼" Thickness)

CWACT2FSHIELD
Double Action Station Shield with Frame
Overall size: 50½ x 13¼ x 32" (¼" Thickness)

FRAME SAFETY SHIELDS FOR ACTION STATIONS

Shields (shown above) feature a metal frame with an acrylic shell to provide added stability and increased durability.

- Can be disassembled for cleaning
- Integrated venting helps keep induction cook-top cool during use
- Frame available in black or random swirl pattern

Both shield options feature integrated vents to allow air to circulate freely to keep butane stove or induction cooktop fans cool.

SAFETY SHIELD PARTITIONS FOR ACTION STATIONS

Our simple acrylic shields (shown to the left) can be used to protect servers and patrons during cooking and serving.

- Lightweight, easy to assemble and disassemble
- Light assembly, no hardware required
- Integrated venting helps keep induction cook-top cool during use
- Can also be used with other modular action station units such as single butane station (CWACTION6_). See full assortment of products in our catalog

CWACT2SHIELD_
Double Action Station Partition
54½ x 9½ x 30" (¼" Thickness)

The CWACT2SHIELD works with the Double Butane Station (CWACTION5) shown on left or other modular Action Station items. Made to order tabletops are also available in Stainless Steel and Aluminum.
